To Whom It May Concern:

Re: Attorney Todd W. Grant, MHSA, JD

I am providing this reference for attorney Todd Grant, who from October 2000 through the end of 2001, provided services by contract through my law firm to the City of River Rouge, one of our clients.

I contracted with Todd to take over and handle areas of litigation in Wayne County Circuit Court for the City of River Rouge. Todd's work ethic and legal acumen were instrumental in organizing and coordinating a docket of numerous nuisance abatement litigation matters and maintaining control over the docket over 50 cases. He provided service that the client has been very happy with and his organizational skills have been relied upon both by myself and the client.

Todd has also handled other work for me apart from City of River Rouge matters. Recently he completed a two-day criminal trial that allowed a business to continue operating against another municipality's efforts to close it down.

I have never had to worry about matters being properly followed-through. Todd's professionalism, organization, and people-skills – as well as the quality of his work – will be an asset in any organization or trial practice.

Sincerely Yours,

*Martin E. Crandall*
